

Testimony from MBC Scholarship Award Recipient

I have wanted to become an IBCLC since 2013 when I was working for a breastfeeding store in NYC. While working there I got the opportunity to meet a wonderful IBCLC who introduced me to the beauty of what it means to be a Lactation Consultant. In 2019 when I learned of the scholarship through MBC and applied, I was overjoyed to be one of the few selected. Through their help, I was able to complete my classes and the remainder of my clinical hours to sit for my exam. Thank you, MBC, for helping me through this process. I can't wait to see what the future holds as an IBCLC!
